EDUCATION

BE. COMPUTER ENGINEERING

- University of Mumbai · Final Year · 2024 - 2026(expected)

TECHNICAL SKILLS

LANGUAGES/TOOLS/Frameworks/Concepts

- **Frontend:** Next.js, React.js, Tailwind, Motion, Three.js, GSAP, TanStack
- **Backend:** Node.js, Express.js, tRPC, REST APIs, Zod
- **Databases:** PostgreSQL, NeonDB, DrizzleORM, PrismaORM, SQLite
- **Tools & Others:** Git, GitHub, Vercel, CI/CD, Docker

PROFESSIONAL EXPERIENCE

PRODUCT EXECUTIVE (Full-Time) | THY SIGMA PVY LTD | MAY 2025 – JUNE 2025

- **Promoted to full-time after internship** for exceptional performance; led deployment and migration of the main streaming platform to NeeveCloud, ensuring scalability and stability.
- **Revamped the platform's UI to align with Figma designs** and refactored legacy agency code, significantly improving performance, maintainability, and user experience.
- **Contributed to product growth** by developing new features, debugging critical issues, and assisting in hiring developers to expand the engineering team.

FRONTEND ENGINEER (Intern) | THY SIGMA PVY LTD | MARCH 2025 – MAY 2025

- **Built and deployed a modern HLS-enabled stream player** for [airena-streamui.vercel.app](#), enabling smooth, low-latency video playback.
- **Developed responsive, accessible UIs** with Next.js, TypeScript, and Tailwind CSS, and **implemented Clerk authentication** for secure user access.
- **Integrated real-time backend APIs** and **migrated infrastructure to NeeveCloud**, ensuring scalability, reliability, and a seamless user experience.

PERSONAL PROJECTS

Portfolio Website | Live at: [anishfn.space](#)

- **Modern full-stack portfolio** built with Next.js, React, TypeScript, and Tailwind CSS showcasing projects and developer identity
- **Real-time personalization and seamless deployment** through Discord, Spotify, and Last.fm API integrations with production-ready Vercel CI/CD pipeline

SNIB – Code Clipboard for Developers | Live at: [https://waitlist.snib.cc](#)

- **"Google Drive for code snippets"** enabling developers to save, organize, and share reusable code efficiently with advanced library management
- **Enterprise-grade performance with productivity-focused design** built on Next.js, TypeScript, Tailwind CSS stack for fast, scalable user experience

Haze/UI – Premium Template Marketplace | Live at: [https://hazeui.vercel.app](#)

- **High-performance web templates** built with React, TypeScript, and Tailwind CSS components optimized for speed and modern UI/UX design
- **Developer-focused architecture** with well-documented, easily customizable templates featuring Framer Motion animations for rapid product development

CATS – Interactive Frontend Showcase Live at: [https://gsapcats.vercel.app](#)

- **GSAP-powered animations** with cool hover effects and text reveals built on React to demonstrate **advanced frontend animation** skills
- **Fully responsive design** showcasing modern utility-first CSS techniques and interactive user experience across all device sizes
